Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 05 June 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

I. Rejection of claim 22 under 35 USC 103(a) as being obvious over Mizzi will not be maintained in light of amendment filed 6/5/06. Applicant has deleted numerical figure references to the claim. Also Mizzi does not disclose an aerosol device comprising a needle or first and second spring means as claimed.

II. New Rejections

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 22 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Note claim 22 makes claim to an aerosol device comprising:

- a) a cylinder
- b) aerosol can
- c) a hollow piston
- d) a needle
- d) a pressure chamber
- e) a first spring means tending

Art Unit: 1616

- f) a nozzle
- g) a second spring means tending.

However, the specification and examples therein disclose that the aerosol device must have the above parts and must contain a composition. Claim 22 drawn to a device without the inclusion of a composition is new matter since the device disclosed in the specification contains a composition.

The terms in claim 22: "a needle", "a hollow piston", "a first spring means tending" and "a second spring means tending" are new matter since the original specification recites "a needle valve", "a piston", a first coil spring" and "a second coil spring" respectively.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 22 is rejected under 35 U.S.C. 102(b) as being anticipated by Hiroshi (JP 11-342202; 12/14/99). Hiroshi teaches the aerosol device as claimed. The aerosol device according to Figures 1-10 in Hiroshi comprises a cylinder (3), port (40b), nozzle (36b), piston (4), needle valve (7), first coil spring (7), second coil spring (5), and pressure chamber (40,41) as instantly claimed. See abstract, Figures 1-10. Note the terms / phrases: "needle", "hollow piston", "first spring means tending" and "second

Art Unit: 1616

spring means tending" are being interpreted as "a needle valve", "a piston", a first coil spring" and "a second coil spring" respectively to arrive at the 102(b) rejection.
